(EXCERPT)

Earl Godwin at 6:15 P.M. over WRC (Washington):

"Democratic Senator Symington of Missouri says his special subcommittee on U. S. and Russian air corps (SIC) would like to make public testimony given by Director Allen Dulles of the CENTRAL INTELLIGENCE AGENCY. Symington says the Central Intelligence Agency had not cleared any of it, although the Pentagon has. That gives me the impression that some of Allen Dulles' testimony, which would always be expert and clear, has some very informative aspects to it with relation to just how we stand in the world with our air force and all those guided missiles and so forth."
